

MISSOURI
TITLE 11. EDUCATION AND LIBRARIES
CHAPTER 167. PUPILS AND SPECIAL SERVICES
PUPILS

§ 167.181 R.S.Mo. (2006)

§ 167.181. Immunization of pupils against certain diseases compulsory -- exceptions -- records -- to be at public expense, when -- fluoride treatments administered, when -- rulemaking authority, procedure

1. The department of health and senior services, after consultation with the department of elementary and secondary education, shall promulgate rules and regulations governing the immunization against poliomyelitis, rubella, rubeola, mumps, tetanus, pertussis, diphtheria, and hepatitis B, to be required of children attending public, private, parochial or parish schools. Such rules and regulations may modify the immunizations that are required of children in this subsection. The immunizations required and the manner and frequency of their administration shall conform to recognized standards of medical practice. The department of health and senior services shall supervise and secure the enforcement of the required immunization program.

2. It is unlawful for any student to attend school unless he has been immunized as required under the rules and regulations of the department of health and senior services, and can provide satisfactory evidence of such immunization; except that if he produces satisfactory evidence of having begun the process of immunization, he may continue to attend school as long as the immunization process is being accomplished in the prescribed manner. It is unlawful for any parent or guardian to refuse or neglect to have his child immunized as required by this section, unless the child is properly exempted.

3. This section shall not apply to any child if one parent or guardian objects in writing to his school administrator against the immunization of the child, because of religious beliefs or medical contraindications. In cases where any such objection is for reasons of medical contraindications, a statement from a duly licensed physician must also be provided to the school administrator.

4. Each school superintendent, whether of a public, private, parochial or parish school, shall cause to be prepared a record showing the immunization status of every child enrolled in or attending a school under his jurisdiction. The name of any parent or guardian who neglects or refuses to permit a nonexempted child to be immunized against diseases as required by the rules and regulations promulgated pursuant to the provisions of this section shall be reported by the school superintendent to the department of health and senior services.

5. The immunization required may be done by any duly licensed physician or by someone under his direction. If the parent or guardian is unable to pay, the child shall be immunized at public expense by a physician or nurse at or from the county, district, city

public health center or a school nurse or by a nurse or physician in the private office or clinic of the child's personal physician with the costs of immunization paid through the state Medicaid program, private insurance or in a manner to be determined by the department of health and senior services subject to state and federal appropriations, and after consultation with the school superintendent and the advisory committee established in section 192.630, RSMo. When a child receives his or her immunization, the treating physician may also administer the appropriate fluoride treatment to the child's teeth.

6. Funds for the administration of this section and for the purchase of vaccines for children of families unable to afford them shall be appropriated to the department of health and senior services from general revenue or from federal funds if available.

7. No rule or portion of a rule promulgated under the authority of this section shall become effective unless it has been promulgated pursuant to the provisions of chapter 536, RSMo. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2001, shall be invalid and void.

MISSOURI

TITLE 12. PUBLIC HEALTH AND WELFARE

CHAPTER 210. CHILD PROTECTION AND REFORMATION

§ 210.003 R.S.Mo. (2006)

§ 210.003. Immunizations of children required, when, exceptions--duties of administrator, report.

1. No child shall be permitted to enroll in or attend any public, private or parochial day care center, preschool or nursery school caring for ten or more children unless such child has been adequately immunized against vaccine-preventable childhood illnesses specified by the department of health and senior services in accordance with recommendations of the Immunization Practices Advisory Committee (ACIP). The parent or guardian of such child shall provide satisfactory evidence of the required immunizations.

2. A child who has not completed all immunizations appropriate for his age may enroll, if:

(1) Satisfactory evidence is produced that such child has begun the process of immunization. The child may continue to attend as long as the immunization process is

being accomplished according to the ACIP/Missouri department of health and senior services recommended schedule; or

(2) The parent or guardian has signed and placed on file with the day care administrator a statement of exemption which may be either of the following:

(a) A medical exemption, by which a child shall be exempted from the requirements of this section upon certification by a licensed physician that such immunization would seriously endanger the child's health or life; or

(b) A parent or guardian exemption, by which a child shall be exempted from the requirements of this section if one parent or guardian files a written objection to immunization with the day care administrator. Exemptions shall be accepted by the day care administrator when the necessary information as determined by the department of health and senior services is filed with the day care administrator by the parent or guardian. Exemption forms shall be provided by the department of health and senior services.

3. In the event of an outbreak or suspected outbreak of a vaccine-preventable disease within a particular facility, the administrator of the facility shall follow the control measures instituted by the local health authority or the department of health and senior services or both the local health authority and the department of health and senior services, as established in Rule 19 CSR 20-20.040, "Measures for the Control of Communicable Diseases".

4. The administrator of each public, private or parochial day care center, preschool or nursery school shall cause to be prepared a record of immunization of every child enrolled in or attending a facility under his jurisdiction. An annual summary report shall be made by January fifteenth showing the immunization status of each child enrolled, using forms provided for this purpose by the department of health and senior services. The immunization records shall be available for review by department of health and senior services personnel upon request.

5. For purposes of this section, satisfactory evidence of immunization means a statement, certificate or record from a physician or other recognized health facility or personnel, stating that the required immunizations have been given to the child and verifying the type of vaccine and the month, day and year of administration.

6. Nothing in this section shall preclude any political subdivision from adopting more stringent rules regarding the immunization of preschool children.

MISSOURI
TITLE 11. EDUCATION AND LIBRARIES
CHAPTER 174. STATE COLLEGES AND UNIVERSITIES

§ 174.335 R.S.Mo. (2006)

§ 174.335. Meningococcal disease, all on-campus students provided information on--election to receive vaccination--records to be maintained.

1. Beginning with the 2004-2005 school year and for each school year thereafter, every public institution of higher education in this state shall require all students who reside in on-campus housing to sign a written waiver stating that the institution of higher education has provided the student, or if the student is a minor, the student's parents or guardian, with detailed written information on the risks associated with meningococcal disease and the availability and effectiveness of the meningococcal vaccine.
2. Any student who elects to receive the meningococcal vaccine shall not be required to sign a waiver referenced in subsection 1 of this section and shall present a record of said vaccination to the institution of higher education.
3. Each public university or college in this state shall maintain records on the meningococcal vaccination status of every student residing in on-campus housing at the university or college, including any written waivers executed pursuant to subsection 1 of this section.
4. Nothing in this section shall be construed as requiring any institution of higher education to provide or pay for vaccinations against meningococcal disease.
