

California Department of Health Services, Division of Communicable Disease Control- Immunization Branch:

EDUCATION CODE

TITLE 2. ELEMENTARY AND SECONDARY EDUCATION

DIVISION 4. Instruction and Services

PART 27. Pupils

CHAPTER 2. Compulsory Education Law

ARTICLE 2. Persons Excluded

Cal Ed Code § 48216 (2006)

§ 48216. Exclusion of pupil who has not been immunized; Notice to parents

(a) The county office of education or the governing board of the school district of attendance shall exclude any pupil who has not been immunized properly pursuant to Chapter 1 (commencing with Section 120325) of Part 2 of Division 105 of the Health and Safety Code.

(b) The governing board of the district shall notify the parent or guardian of the pupil that they have two weeks to supply evidence either that the pupil has been properly immunized, or that the pupil is exempted from the immunization requirement pursuant to Section 120365 or 120370 of the Health and Safety Code

(c) The governing board of the district, in the notice, shall refer the parent or guardian of the pupil to the pupil's usual source of medical care to obtain the immunization, or if no usual source exists, either refer the parent or guardian to the county health department, or notify the parent or guardian that the immunizations will be administered at a school of the district.

HEALTH AND SAFETY CODE

DIVISION 105. Communicable Disease Prevention And Control

PART 2. Immunizations

CHAPTER 1. Educational and Child Care Facility Immunization Requirements

Cal Health & Saf Code § 120325 (2006)

§ 120325. Legislative intent

In enacting Chapter 1 (commencing with Section 120325, but excluding Section 120380) and in enacting Sections 120400, 120405, 120410, and 120415, it is the intent of the Legislature to provide:

(a) A means for the eventual achievement of total immunization of appropriate age groups against the following childhood diseases:

- (1) Diphtheria.
- (2) Hepatitis B.
- (3) Haemophilus influenzae type b.
- (4) Measles.
- (5) Mumps.
- (6) Pertussis (whooping cough).
- (7) Poliomyelitis.
- (8) Rubella.
- (9) Tetanus.
- (10) Varicella (chickenpox). This paragraph shall be operative only to the extent that funds for this purpose are appropriated in the annual Budget Act.
- (11) Any other disease that is consistent with the most current recommendations of the United States Public Health Services' Centers for Disease Control Immunization Practices Advisory Committee and the American Academy of Pediatrics Committee of Infectious Diseases, and deemed appropriate by the department.

(b) That the persons required to be immunized be allowed to obtain immunizations from whatever medical source they so desire, subject only to the condition that the immunization be performed in accordance with the regulations of the department and that a record of the immunization is made in accordance with the regulations.

(c) Exemptions from immunization for medical reasons or because of personal beliefs.

(d) For the keeping of adequate records of immunization so that health departments, schools, and other institutions, parents or guardians, and the persons immunized will be able to ascertain that a child is fully or only partially immunized, and so that appropriate public agencies will be able to ascertain the immunization needs of groups of children in schools or other institutions.

(e) Incentives to public health authorities to design innovative and creative programs that will promote and achieve full and timely immunization of children

Cal Health & Saf Code § 120335 (2006)

§ 120335. "Governing authority"; Unconditional admission; Immunization requirements; Documentation; Specification of immunizing agents

(a) As used in Chapter 1 (commencing with Section 120325, but excluding Section 120380), and as used in Sections 120400, 120405, 120410, and 120415, the term "governing authority" means the governing board of each school district or the authority of each other private or public institution responsible for the operation and control of the institution or the principal or administrator of each school or institution.

(b) The governing authority shall not unconditionally admit any person as a pupil of any

private or public elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center, unless prior to his or her first admission to that institution he or she has been fully immunized. The following are the diseases for which immunizations shall be documented:

- (1) Diphtheria.
- (2) Haemophilus influenzae type b, except for children who have reached the age of four years and six months.
- (3) Measles.
- (4) Mumps, except for children who have reached the age of seven years.
- (5) Pertussis (whooping cough), except for children who have reached the age of seven years.
- (6) Poliomyelitis.
- (7) Rubella.
- (8) Tetanus.
- (9) Hepatitis B for all children entering the institutions listed in this subdivision at the kindergarten level or below on or after August 1, 1997.
- (10) Varicella (chickenpox), effective July 1, 2001. Persons already admitted into California public or private schools at the kindergarten level or above before July 1, 2001, shall be exempt from the varicella immunization requirement for school entry. This paragraph shall be operative only to the extent that funds for this purpose are appropriated in the annual Budget Act.

The department may adopt emergency regulations to implement this paragraph including, but not limited to, requirements for documentation and immunization status reports, in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The initial adoption of emergency regulations shall be deemed to be an emergency and considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this paragraph shall remain in effect for no more than 180 days.

(11) Any other disease deemed appropriate by the department, taking into consideration the recommendations of the United States Public Health Services' Centers for Disease Control Immunization Practices Advisory Committee and the American Academy of Pediatrics Committee of Infectious Diseases.

(c) On and after July 1, 1999, the governing authority shall not unconditionally admit any pupil to the 7th grade level, nor unconditionally advance any pupil to the 7th grade level, of any of the institutions listed in subdivision (b) unless the pupil has been fully immunized against hepatitis B.

(d) The department may specify the immunizing agents which may be utilized and the manner in which immunizations are administered

Cal Health & Saf Code § 120360 (2006)

§ 120360. Exceptions

The requirements of Chapter 1 (commencing with Section 120325, but excluding Section 120380) and of Sections 120400, 120405, 120410, and 120415 shall not apply to any person 18 years of age or older, or to any person seeking admission to a community college.

Cal Health & Saf Code § 120365 (2006)

§ 120365. Letter or affidavit stating beliefs opposed to immunization; Temporary exclusion from school

Immunization of a person shall not be required for admission to a school or other institution listed in Section 120335 if the parent or guardian or adult who has assumed responsibility for his or her care and custody in the case of a minor, or the person seeking admission if an emancipated minor, files with the governing authority a letter or affidavit stating that the immunization is contrary to his or her beliefs. However, whenever there is good cause to believe that the person has been exposed to one of the communicable diseases listed in subdivision (a) of Section 120325, that person may be temporarily excluded from the school or institution until the local health officer is satisfied that the person is no longer at risk of developing the disease.

Cal Health & Saf Code § 120370 (2006)

§ 120370. Statement by physicians contraindicating immunization

If the parent or guardian files with the governing authority a written statement by a licensed physician to the effect that the physical condition of the child is such, or medical circumstances relating to the child are such, that immunization is not considered safe, indicating the specific nature and probable duration of the medical condition or circumstances that contraindicate immunization, that person shall be exempt from the requirements of Chapter 1 (commencing with Section 120325, but excluding Section 120380) and Sections 120400, 120405, 120410, and 120415 to the extent indicated by the physician's statement.

TITLE 17. PUBLIC HEALTH

DIVISION 1. STATE DEPARTMENT OF HEALTH SERVICES

CHAPTER 4. PREVENTIVE MEDICAL SERVICE

SUBCHAPTER 8. IMMUNIZATION AGAINST POLIOMYELITIS,

DIPHTHERIA, PERTUSSIS, TETANUS, MEASLES (RUBEOLA), RUBELLA,

HAEMOPHILUS INFLUENZAE TYPE B (HIB), MUMPS, AND HEPATITIS B

ARTICLE 1. DEFINITIONS

17 CCR 6000 (2006)

§ 6000. Admission

"Admission" means a pupil's first entry in a given public or private elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center. "Admission" also denotes a pupil's re-entry to one of these institutions after withdrawing from a previous enrollment.

(a) "Unconditional admission" is admission based upon documentation of receipt of all required immunizations or upon documentation of a permanent medical exemption or of a personal beliefs exemption to immunization in accordance with Section 6051.

(b) "Conditional admission" is admission based upon either documentation of having received some but not all required immunizations and of not being due for any vaccine dose at the time of entry or upon documentation of a temporary medical exemption to immunization in accordance with Section 6050. Continued attendance after conditional admission is contingent upon receipt of the remaining required immunizations in accordance with Sections 6020 and 6035.

17 CCR 6020 (2006)

§ 6020. Required Immunizations

(a) The required immunizations for admission to and attendance at a public or private elementary or secondary school, child care center, day nursery, nursery school, family day care home, or developmental center shall be those set forth, according to age, in Table 1.

(b) In Table 1 of Section 6020 and in Table 2 of Section 6035, DTP (or DPT) means diphtheria and tetanus toxoids and pertussis vaccine, including DTaP vaccine. DT (or TD) and Td (or dT) means diphtheria and tetanus toxoids.

(c) For pupils who have reached their seventh birthday, a history of any preparations containing both diphtheria and tetanus toxoids (DTP, DT, Td, etc.) shall be acceptable as meeting the requirement for tetanus and diphtheria toxoids that is set forth in Table 1.

(d) Pupils who have reached their seventh birthday shall be exempt from the pertussis and mumps immunization requirements.

(e) Combination vaccines that include measles, mumps, and rubella components shall be acceptable as meeting the requirements for these vaccines that are set forth in Table 1.

(f) For pupils entering or advancing to the seventh grade, immunization requirements are set forth in Table 1.

(g) Pupils already admitted to California public and private schools at the Kindergarten level or above before July 1, 2001 are exempt from the Varicella (chickenpox) requirement as set forth in Table 1.

17 CCR 6025 (2006)

§ 6025. Unconditional Admission

Any pupil age 18 months or older who has received all the immunizations against poliomyelitis, diphtheria, tetanus, pertussis, measles (rubeola), rubella, Haemophilus influenzae type B, mumps, hepatitis B and varicella (chickenpox) required for his or her age, as defined in Table 1, Section 6020, or who has documented a permanent medical exemption or a personal beliefs exemption to immunization in accordance with Section 6051, shall be admitted unconditionally as a pupil to a given public or private elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center. However, for some pupils admitted unconditionally to a child care center, day nursery, nursery school, family day care home, or development center, an additional dose of DTP and/or polio vaccine will be required for admission to school at kindergarten level and above, as indicated in Table 1, Section 6020.

17 CCR 6051 (2006)

§ 6051. Unconditional Admission with Permanent Medical Exemption or Personal Beliefs Exemption

A pupil with a permanent medical exemption or a personal beliefs exemption to immunization shall be admitted unconditionally. A permanent medical exemption shall be granted upon the filing with the governing authority of a written statement from a licensed physician to the effect that the physical condition of the pupil or medical circumstances relating to the pupil are such that immunization is permanently not indicated. The fact of the permanent medical exemption shall be recorded on the California School Immunization Record, PM 286 (1/02) as provided in Section 6070. A permanent medical exemption may be provided for one or more vaccines. A physician may provide a written statement that the pupil is medically exempt from the measles (rubeola) and/or varicella (chickenpox) requirements as a result of having had measles (rubeola) and/or varicella (chickenpox) disease, respectively. A physician may provide a written statement that the pupil is medically exempt from the rubella and/or mumps requirement as a result of having had laboratory confirmed illness with the corresponding disease. A personal beliefs exemption shall be granted upon the filing with the governing authority of a letter or affidavit from the pupil's parent or guardian or adult who has assumed responsibility for his or her care and custody in the case of a minor, or the person seeking admission if an emancipated minor, that such immunization is contrary to his or her beliefs. The fact of the personal beliefs exemption shall be recorded on the California School Immunization Record, PM 286 (1/02). A pupil with an exemption

which is not based on pre-existing immunity to disease may be subject to exclusion pursuant to Section 6060.

§ 6051. Pupil Not Completely Immunized and Exposed to Communicable Disease.

Whenever the governing authority has good cause to believe that a pupil who is not completely immunized against a particular communicable disease may have been exposed to that disease, that information shall be reported by the governing authority immediately by telephone to the local health officer. The local health officer shall determine whether the pupil is at risk of developing the disease and, if so, may require the exclusion of the pupil from that school, child care center, day nursery, nursery school, family day care home, or development center until the completion of the incubation period and the period of communicability of the disease.

**HEALTH AND SAFETY CODE
DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL
PART 2. IMMUNIZATIONS
CHAPTER 1.5 IMMUNIZATION OF COLLEGE-AGE STUDENTS**

Cal. Health & Saf. Code §§ 120390-120390.7(2006)

120390. The department, in consultation with the Trustees of the California State University, and the Regents of the University of California, shall adopt and enforce all regulations necessary to carry out this chapter.

120390.5.

(a) Except as provided in subdivisions (b), (c), and (d), on or after January 1, 2000, the Trustees of the California State University, and the Regents of the University of California shall require the first-time enrollees at those institutions who are 18 years of age or younger to provide proof of full immunization against the hepatitis B virus prior to enrollment.

(b) A person who has not been fully immunized against the hepatitis B virus, as required by subdivision (a), may be admitted by the governing body of any of the institutions of higher education to which subdivision (a) is applicable on condition that, within a designated time period, the person will provide proof of full immunization against hepatitis B.

(c) Immunization of a person shall not be required for admission to an institution of higher education to which subdivision (a) is applicable if any of the following persons files with the governing body of the educational institution a letter or affidavit stating that the immunization is contrary to the beliefs of either of the following:

(1) The parent, guardian, or adult who has assumed responsibility for the care and custody of the person seeking admission, if that applicant is a minor who is not emancipated or who is 17 years of age or younger.

(2) The person seeking admission, if that applicant is an emancipated minor or is 18 years of age.

(d) If a person seeking enrollment in an institution of higher education to which subdivision (a) is applicable, or the parent or guardian of a person seeking enrollment, files with the governing body a written statement by a physician and surgeon that the physical condition of the person or medical circumstances relating to the person are such that immunization is not considered safe, indicating the specific nature and probable duration of the medical condition or circumstances that contraindicate immunization, that person shall be exempt from the requirements of subdivision (a).

120390.7. No provision of this chapter shall apply to the University of California except to the extent that the Regents of the University of California, by appropriate resolution, make that provision applicable.
